

Sikorsky S-76D Executive Helicopter

Best choice: best value for performance, safety, comfort and reliability

Everything You Asked For and More

Safety. Comfort. Performance. Reliability.

Sikorsky Aircraft delivers all this and more in its newly enhanced S-76 — the revamped, redesigned, and renamed S-76D helicopter — for the executive transport mission.

The new S-76D has been improved to meet the needs of today's operators, incorporating technological advances that deliver the ultimate in safe, comfortable, reliable performance, and a sleek new design that tells the world you've arrived.

The S-76D merges modern technology enhancements, including a new cockpit and more powerful engines, with luxurious interior appointments and exceptional styling from nose to tail. At the same time, the S-76D delivers maximum value, remaining extraordinarily cost-effective to own and operate.

Long known for setting the standard for excellence among the world's executive transport helicopters, Sikorsky Aircraft has taken the concept of upward mobility to a whole new level with the S-76D.

THE BOTTOM LINE *The new S-76D is the ultimate merger of substance and style in a modern executive transport helicopter. It delivers the ideal combination of safety, comfort, performance and value.*

A New Standard for Safety and Comfort

Safety is a priority.

Designed with a multitude of safety features, the S-76D is a helicopter you can fly in challenging conditions with peace of mind and confidence.

The S-76 features an outstanding and enviable safety record over 26 years and 4 million-plus flight hours. Today's new S-76D is building on this legacy with an array of preventive safety features, including all-composite, flaw tolerant main and tail rotor blades, redundant systems for flight controls, advanced avionics featuring integrated cockpit displays, and health usage monitoring that captures and records operational flight data. Of course, the S-76D's significantly improved performance, with new more powerful engines, also delivers an enhanced margin of safety.

The Enhanced Ground Proximity Warning System (EGPWS) and cockpit voice recorder (CVR) are standard equipment on the S-76D.

The S-76D delivers all-weather safety features for flight in changing environments – so whether you are flying across the water or across a city, you may fly with peace of mind day and night. These safety features include optional main and tail rotor ice protection, severe lightning protection, and High Intensity Radiated Field (HIRF) protection so that critical electronic systems are protected from electromagnetic interference.

THE BOTTOM LINE *Safety is anything but a luxury in the S-76D. Safety features are designed in at all levels of the helicopter for maximum assurance and peace of mind.*

A full suite of optional equipment designed to enhance crew and passenger safety and comfort are offered. These options include:

- Satellite communication system
- Cellular phone base and charger system
- Entertainment system
- Tinted windshields
- Refreshment cabinets
- Emergency flotation system
- Automatic flotation deployment system
- Single action cabin door release
- Traffic collision avoidance system (TCAS)

Maximum comfort for maximum productivity.

The S-76D combines the flexibility and agility of a helicopter, with all the comfort, safety, and quietness of a luxury airliner. The spacious cabin, dual speed rotors with active vibration control, and Quiet Zone™ technology make for an extraordinarily smooth flight within a whisper-quiet, acoustically advanced environment. Executives and VIPs can transition seamlessly from office to helicopter, working and meeting in an environment that promotes productivity.

Your luxuriously appointed and impeccably customized S-76D interior is the epitome of comfort and sophistication. Operators may choose from an array of fabrics, colors and amenities that reflect their own personal style.

Executives will also appreciate the S-76D's satellite phones, entertainment systems, flight progress displays and refreshment cabinets that feature custom woodwork.

THE BOTTOM LINE *The S-76D offers the ideal environment to work or relax as you get to your destination in uniquely customized style and comfort.*

The Most Advanced Cockpit Technology

Smart and simple to operate, the S-76D helicopter will feature the most technologically advanced cockpit available today, incorporating the latest technologies and architecture.

The state-of-the-art Sikorsky-Thales cockpit system has been designed specifically for helicopter operations and features large-format displays that have been consolidated in an efficiently designed console for improved visibility and field-of-view. Ergonomically designed, easy-

to-use display screens will maximize situational awareness for pilots, reducing pilot workload and maximizing safety.

Pilots and operators will also benefit from the S-76D's exceptional handling qualities and the ultimate in maneuverability during approach, hover and landing.

THE BOTTOM LINE *A thoughtfully designed, high technology cockpit will further enhance safety and the overall flying experience of the S-76D.*

Comprehensive Support that Caters to You

A forward-thinking support program that caters to the needs of a discriminating clientele makes owning an S-76D just as rewarding as flying an S-76D. Only Sikorsky combines solid support systems, based on long-standing and proven maintenance programs, with state-of-the-art capabilities that are unique to the industry.

We keep you flying, with around the world and around-the-clock-service and a comprehensive program that includes spare parts, overhaul and repair, training, on-site technical and logistics representatives, ground support equipment, publications and more. Sikorsky also offers a full motion Level D flight simulator that will be available at first aircraft delivery, engineering

support, and will designate your program with a single-point-of contact to simplify the support process across-the-board.

THE BOTTOM LINE *Anytime and anywhere, the S-76D world-wide customer service team will work with you to increase flight readiness, improve ease-of-use, and reduce costs.*

Superior System. Superior Performance.

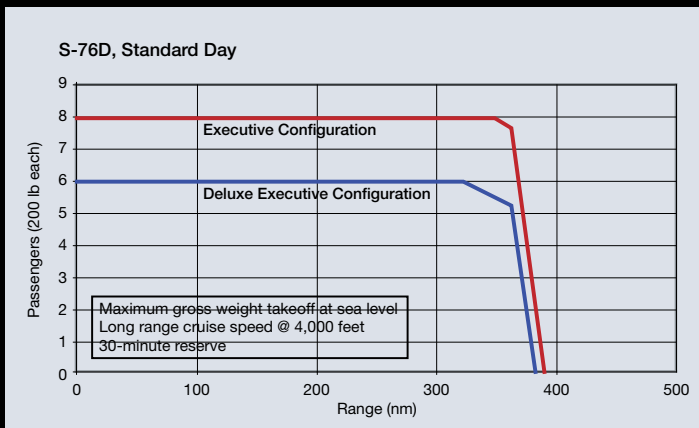

- 1 New flaw tolerant composite main rotor blades
- 2 Rotor ice protection system
- 3 Active vibration control
- 4 Quiet Tail Rotor (QTR)
- 5 Dual speed rotor for reduced external noise
- 6 PW210 engines
- 7 Upgraded electrical generation system
- 8 Next generation avionics system and autopilot

The Sikorsky S-76D helicopter has been developed in response to customer requirements, but in a way that will exceed operator expectations for safety, comfort and performance.

First, there's more capability – the S-76D delivers a 1,000-pound increase in useful load for Category A, hot-day takeoff performance as well as extended range. With no increase in gross weight, S-76D operators will realize improved maneuverability and enhanced performance from advanced, lightweight, all-new composite main and tail rotor

blades. New Pratt & Whitney Canada 210 engines have been designed and optimized specifically for the S-76D, to significantly boost power, reliability, and ease of maintenance.

Other important enhancements include certification for flight into known icing conditions, a key benefit for improved dispatch reliability, Silencer™ interior for quiet comfort, active vibration control for a smoother flight experience, quiet tail rotor for less noise during takeoff, landing and flyovers, an upgraded electrical system, and a next-generation avionics system jointly developed by Sikorsky and Thales.

The S-76D offers a comprehensive package of improvements resulting in a helicopter that is generations ahead of competitive rotorcraft.

THE BOTTOM LINE *The S-76D delivers a performance edge that translates into a competitive edge for busy executives. Carry more, fly farther, and operate more safely and comfortably than ever before with the new S-76D. Superior System. Superior performance.*

**You've already moved up.
Isn't it time to move up to Sikorsky?**

People on the move know that Sikorsky is the only way to fly. As the world's premier provider of executive helicopters, Sikorsky goes above and beyond to deliver a complete helicopter experience. Sikorsky not only sets the standard for rotorcraft excellence and safety — we exceed it.

Innovative solutions.

A proven family of high-performing helicopters.

Exceptional value.

Unparalleled service and support.

There are those who fly.

And those who fly Sikorsky.
